

Dear Parents,

If you have a managed care plan, you need to be aware that most managed care plans require the policy holder to use certain laboratories, radiology or hospitals. If you do not, your plan will not cover the service.

With so many different plans, University Pediatrics Association **cannot be responsible** to direct you to the facilities that are approved by your plan. It is your responsibility to know what your plan covers.

Please read your policy or call your human resource department if you are unsure what facilities your plan covers.

I have read the above statement and understand that University Pediatrics Association is not responsible for any procedures not covered by my insurance company.

Signature Date

Notice:

If you have a school form that requires a Doctor's signature, there is no charge if the Doctor fills out the form at your appointment. There is a \$5.00 charge and a 24-48 hour processing fee, if the form is completed without an appointment.
